## Strut Systems Installation SERVICES

### Unparalleled Medical Equipment Support

Strut Systems Installation LLC is owned and operated by the Eberl family. It was created to focus on customers with the need for high quality, installed Unistrut Medical Supports and Ceiling Grids. FallProtected.com, a division of Strut Systems Installation LLC was also created to help those in need with Fall Protection systems and services.

SSI combines the experience, engineering and support customers expect from the Eberl name into an independently owned construction company. Our goal is to provide a high standard of service and quality craftsmanship.

Our team of project managers and estimators have over fifty years of combined experience in construction and safety. They are ready to take your project from concept to completion, quickly and cost effectively.

### Types of Equipment We've Supported

- Overhead X-Ray Supports
- Operating Room Supports
- Surgical Lighting Supports
- CRT Monitor Supports
- Gas Column Supports
- Radiation Shielding Supports
- CT Injector Supports
- Microscope Supports

An Eberl Company

### Ceiling Grids

We'll design and install your overhead ceiling grid system. Unistrut Ceiling Grids make use of often under-utilized vertical space while providing a versatile and flexible framework of supports for HVAC duct work, electrical and plumbing.

### OSHA & ANSI Safety Standards

Our fully engineered systems are designed to meet, or exceed, both OSHA and ANSI standards, as well as various other industry safety standards. Whether updating an existing system or installing a brand new one, safety is our number one priority.

### Other Applications

- Clean Room Applications
- Casework Pipe Chase Frames
- Gas Cylinder Racks
- Service Catwalks
- Cable Trays
- Data Grids
- Telecom Grids
- Acoustic Ceilings
- Theatrical Lighting
- Architectural Applications
- Retail Applications
- Ceiling Hung Toilet Partitions
